8. Downgrading of the A1123 to a B Road

The decision to downgrade the A1123 to a B road had been overturned by CCC. A report had been received from the Highways Committee suggesting other traffic calming measures and informing Parish Councils along the A1123 that these could be obtained using the LHI Bid system. The suggested measures were:

Draft minutes not yet accepted

- Priority give ways
- Raised tables
- Speed cushions
- Visual pinch points or road hatchings

It was agreed that the Parish Council should respond with the following:

Wicken Parish Council strongly objects to the decision to overturn the democratic decision to downgrade the A1123 to a B road. The suggested traffic calming measures for our village of priority give ways, raised tables, speed cushions and visual pinch points or road hatchings would bring other issues for example, increased noise from air brakes and empty trailers and increased emissions as vehicles stop and start. We feel the only effective alternative would be speed cameras which are not included in the LHI bid system.

Wicken Parish Council request that CCC and the Highways Department clarifies that, if LHI bids were to be used to install the alternatives, whether different rules would apply for parishes along the A1123 as the Parish Council does not have the funds to contribute 10% of the costs for the suggested alternatives.

District Councillor Bovingdon left the meeting at 9.15pm

9. Local Highways Improvement 2022/23

This would be rolled over to the September meeting once clarification was received from Highways regarding the above.

10. Upware Open Space

Clr Tory had attended a site meeting with the Environmental Agency regarding a project on the EA public space in the village. This project would see the area improved and set with wild flowers. The EA had offered support with the Open Space project.

The clerk had met with RWS Building and Landscapes Ltd to obtain a quote on the fence. The quote was for £2850 plus VAT for the fence with wooden gates or £2565 plus VAT for metal gates. As this was over £1500 the clerk would continue to obtain further quotes.

The clerk had tried to contact IDM on numerous occasions without success and would be meeting with Jeston Justin? Staples to discuss the ditch and culvert.

11. Meeting with the National Trust

Purchase of Land or Longer Lease Request

The Clerk and Chair had met with the National Trust and during the meeting the National Trust had enquired about purchasing the land belonging to the Parish Council or obtaining a longer lease. The clerk had looked into this and had found the land in Sedge Fen, Poor's Fen and the allotments were all designated as Common Land and could therefore not be sold. However, the Stack Ground land could be sold. This was discussed in full and it was a unanimous decision not to sell the land but to agree a longer lease. The clerk would respond to the National Trust.

Fishing Rights

The rules of the Wicken Angling Club stated that members could fish Wicken Lode along the Poors Fen land to Normans Bridge and to Upware Cock-Up Bridge. The National Trust had challenged the rights from Monks Lode up to Cock-Up Bridge as this as it was on National Trust land and in the Burwell Parish. There were also restrictions due to the NNR etc. designations and the Lode contained Spiney loach which were rare and protected. The Parish Council agreed that

the area where members of the club could fish should be restricted to Wicken Lode and Monks Lode where it borders Poor's Fen to Normans Bridge.
